## November 2008 Ministry Report

Dear Partners,

Our nation has just gone through a satanic ordeal of terror in the city of Bombay. A total of 60 hrs of terror, started with death and ended with death. This news was well covered and the whole world has seen this on TV broadcasted, minute by minute. In the recent past our nation went through another satanic ordeal in Orissa, which if not of the same magnitude was even worse. There was an attack on churches and our own people killed, burnt, pulled down houses and raped innocents. Where was the media at that time? Why was there no coverage? We are trying to push our own atrocities under the carpet and expose those that are perpetuated from outside. A very correct and realistic picture emerges and as a church we need to discern what is going on. After the NSG, completed the operations they started a work which they called "sanitizing" the area. They might have cleared out the RDX and rubble, but what is left behind is an infestation of demons, released into our land by this satanic act. Death, fear, terror, pain, murder, violence, revenge, anger, loss, depression, grief and many more demons are released. Who is going to do the sanitizing here? The church of Jesus Christ. This job is even greater than that of the NSG. There have been many sacrifices of lives, made in the course of the operations. My question to you is what sacrifice are you willing to make, to bring in the power of the Gospel of Jesus and his kingdom of righteousness? Think about this - the battle is intense. Please respond and support the gospel through our ministry.

There is a call to pray for the government of India and the next general elections are due in May next year. Lets start praying for a non-communal stable and effective government which will be open and without hidden agendas and will keep India open to the Gospel.

We are now in the last month of the year and many of you are about to see the supernatural intervention of the Lord in your lives. All who have been faithful will see the special favour of God. The desires of your heart will come through.

This month we are praying for the Lord to give us a word and mandate for 2008. Please pray with me. Let us move in the vision together. There is no turning back.

We have started a very special work in the Almatti area in a village called Hunnur. These are devdasi people, the temple prostitutes and have children but no husbands. Some have turned to the lord and we are praying to establish a ministry with them. This door is open. Please pray about this.

All other churches are doing well. There is still some opposition in Tulsalahalli. We experience openness in other areas. Our next pastors meeting is on 6-11-08. We are praying for our Christmas celebrations. If you are led to send a special gift for our pastors and families this Christmas. Please do so and the Lord will bless you.

Thank you all for your prayers and support. I am in regular prayer for each one of you.

A big god bless, from Belgaum  
For our king Yeshua,  
colin kyte.
